## Skills Your Child Should Know Before Coming To Kindergarten

Children don't need to be able to read by the time they enter kindergarten, instead students should be ready to be taught how to read.

Parents should read, sing, and talk with their child daily to prepare them.

Here are some examples of what children should be able to do:

- \*Recognize alphabet letters. This means recognizing isolated letters, not just memorizing them in sequence.
- \*Know their first and last name. Be able to recognize name in print.
- \*Count, typically students should be able to reach at least 20, and they need to understand the concept that each number corresponds to a quantity.
- \*Recognize numbers and patterns. This includes being able to distinguish between letters and numbers.
- \*Identify shapes and colors. Can sort and classify by shape, size, and color.
- \*Share, wait their turn, and communicate with words, not actions when they are upset.
- \*Pay attention: students should be able to sit long enough to hear a story and be able to understand and follow two-step and three-step directions.
- \*Zip, snap, tie, button, and fasten Velcro. They should be able to tie their own shoes and take care of their bathroom needs independently.
- \*Cut and glue independently.
- \*They should be practicing their phone number and address.
- \*Please see the additional handout with *SOME* of the high frequency words your child will learn in kindergarten.

Below is a sample of **some** high frequency and decodable words your child will be expected to know in Kindergarten. Be proactive! Print these words to practice with your child over the summer. Happy reading! ☺
