# Please consider...

- Items in lunchbox should be easy for students to open without support
- Begin practicing with students now if they will be bringing a lunch from home
- We will make sure every student has the support they need
- Please note we are a "nut aware" school

**Dear Parents**  
(of elementary school aged kids)

When your kids come to school we will have to help them open LOTS of the things you pack for lunch.

**PLEASE HAVE THEM PRACTICE OPENING THINGS BY THEMSELVES.**

These are EASIER to open. If I help them open it, I won't be putting my hands on parts that will go in their mouth.

flip top water bottles      bento box/or tupperware      ziplock bags      reusable sandwich bags      twist off snacks

These are HARDER to open. If you send these PLEASE have them PRACTICE opening it. If I help them open it, I will be putting my hands on parts that will go in their mouth.

milk carton      juice box w/straw to put in it.      lunchables have MANY packages to open inside of it.      individual chips/snacks      twist off drinks

If your kiddo can open everything in their lunch, it means less time waiting with their hand up, more time eating and less germs!! (even though we are washing our hands and disinfecting)
