

## Questions for Critical Thinking

Dear Parents,

The cognitive domain of Bloom’s Taxonomy emphasizes intellectual outcome. We want our learners to be able to recall important information from what they read. However, we also want them to use more in depth thinking skills such as: making predictions, understanding characters, understanding why things happen, comparing and contrasting ideas, and expressing opinions. We have created this list of questions for you to use at home with your child. The results will be improved attention to detail, increased comprehension, and expanded problem solving skills. Make time to have some reading time with your child. Have your child read out loud to you. Then, ask your child questions from the categories below to encourage them to use the different levels of thinking.

<b>Levels of Thinking</b>	<b>Sample Questions</b>
<p><b>Knowledge</b> <i>Exhibit memory of previously-learned material by recalling facts, terms, basic concepts and answers.</i></p>	<ul style="list-style-type: none"> <li>▶ Who are the main characters?</li> <li>▶ Where does the story take place?</li> <li>▶ What is the problem/solution?</li> <li>▶ What are some important events in the story?</li> </ul>
